**DETAILED ACTION**

***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-40 and 84-99, drawn to categorizing electronic documents and searching and retrieving said electronic documents, classified in Class 707, Subclass 3.
- II. Claims 41-83, drawn to authoring, editing and storing electronic documents, classified in Class 715, Subclass 530.

The inventions are distinct, each from the other because:

- Group I comprises organizing documents in a database and searching for and retrieving said documents; whereas
- Group II comprises editing an electronic document and storing the resultant altered document.

While the separate inventions are related, each of these inventions includes distinct subject matter that has attained recognition in the art as a separate subject for inventive effort, and also a separate field of search.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
